As you travel, purchase most of your fuel in jurisdictions with the best rankings. Depending where you travel, this may not always be possible - at least purchase minimal fuel in the jurisdictions with the lowest rankings.

This chart displays the average net fuel pump prices less refundable taxes in both Canadian and US funds. It is to be used for information purposes only as the average fuel prices or fuel tax rates may have changed since this was produced. This chart is only relevant to O/O's who pay for fuel taxes and receive fuel tax refunds.
