Instructions:

Update any of the cells in RED. After doing so, click one of the SORT BY buttons to recalculate the ranking. Also, update the "as at date" so you remember when you last changed the fuel prices.

Exchange Rate: Enter the current exchange rate (check with your bank, credit card company or fuel supplier).

Fuel Price (at the pump): For each St/Prov, enter the total pump price including all taxes.

Sort By St/Prov: alphabetically sort by province and state

Sort By Rank: sort by lowest Net Price.
